FINANCIAL AND COMMERCIAL.

INTENSE DULNESS IN "THE STREET."

Relaxation in the Money Market.

Gold Off to 109 7-8, Closing 110-Gold Checks to Pass Through the Clearing House in Future.

Stocks Quiet and Heavy-Pacific Mail Advancing-Eric Looking to Albany.

WALL STREET, THURSDAY, Feb. 29-6 P. M. On 'Change to-day wheat was dult and heavy. The cotton market was weak and lower.

MONEY EASIER. The money market was active early in the day. when the dealings on stocks were at seven gold to 1-32 per cent, the latter rate being paid in addition to legal interest. Among the government houses the rate was full seven per cent currency. Toward two o'clock there was a sensible moderation of the and, as a consequence of the pretty eager supplying of wants in the lorencon, and before three o'clock the rate had declined to five per cent, which was merety a quotacion however, the amount needed a ter half-past two making up of accounts against an apprehended 'squeeze." It will be remembered that we have ow nad three days of high rates for money. This interval has given ample opportunity for the transmission of money to this city from other cities, where the inquiry has been less active; hence, undoubtedly, the better supply of funds to-day, alblance of stringency. Prime commercial paper, endorsed, is quoted 7 a 8½ per cent discount and GOLD CHECKS AND GOLD CLEARANCES.

The committee appointed by the Clearing House to perfect arrangements for an exchange and clear-ance of gold checks similar to the process used in the case of ordinary checks, have agreed upon a will be a great accommodation to the numerous merchants having transactions in gold, is officially unced by Mr. Camp, the Manager of the Clear-

announced by Mr. Camp, the Manager of the Clearing House, in the following circular to the banks:

The exchanging of gotd checks through the Clearing House will commence on Friday morning, March 1. You will please arrange your gold checks in a separate envelope, legibly stamped "Gold," listed in red ink, in the same manner as your currency exchanges. Enter the amounts in the second column of your runner's statements, or receipts, in red ink, delivering the gold exchanges at the Clearing House at the same time with the other exchanges. A separate setting cierk's statement must also be prepared, the blanks for which will be furnished you. The uebtor banks will pay as early after the proof is made as possible, and under no the cumstances later than haif-past twelve o'clock. The creditor banks will receive their credit balances as soon thereafter as the amounts can be made up.

The pressure of sterling bills out of second hands has forced the leading bankers to lower their rates, which they have reduced to 109% for sixty day and 110% for sight drafts on London. These figures are nominal, however, the real business naving been 1/2 a 1 lower. The demand for foreign exchange, as may be inferred from these facts, is quite light, a feeling existing among remitters that a peaceful adjustment of the Alabama question will operate

against the usual summer rise.

on the public debt was only \$89,000. THE GOVERNMENT PURCHASE OF BONDS.

The Assistant Treasurer at noon opened proposals for the sale of five-twenties to the government, and ranging, ex interest, from 108,90 to 110,07. The amount advertised for (a million) was obtained at

GOVERNMENTS OUIET. The government list was quiet and, considering the decline in gold and large offerings at the Sub Treasury, steady. The following were the closing 114; do. sixes, 1881, registered, 114 a 114%; do. do. na; do. sixes, 1881, registered, 114 a 113;; do. do., coupon, 115 a 115½; do. five-twenties, registered, May and November, 111 a 111½; do. do., 1862, coupon, do., 111 a 111½; do. do., 1884, do. do., 111 a 111½; do. do., 1885, do. do., 111½ a 111½; do. do., 1867, registered, January and July, 110% a 111; do. do., 1865, coupon, do., 110% a 110%; do. do., 1867, do. do., 111% a 111%; do. do., 1868, do. do., 111% a 112%; do. fives of 1881, funded, registered, 108% a 108%: do. do. do., coupon, 108% a 108%; do. ten forties, registered, 107 a 107%; do. do., coupon, 110%.

"THE HOLIDAY ON MARCH 17." The excellent little joke which the more jovial members of the Stock Exchange indulged in with reference to the proposed "holiday on March 17" last in its train come the several opaque and atrabilious gentiemen who pretend to discuss finance for the public in some of our morning journess in the Stock Exchange are not infrequent in shat institution, and are conducive to longevity and good health. The HERALD, faithful to its mission as the great newspaper of the day and reflector of al that is grave or gay, lively or severe in the world, reproduced the facts truthfully when, amid its financial record, it embodied the public, as it does from day to day, a more correct picture of life at the Stock Exchange than do the dozen catchpenny books about "Men and Things in Wall Street," &c. For the few dullards whom we have stirred into temporary animation we pub

lish the following:—
CITY AND COUNTY OF NEW YORK, 88.—J. F. Phillips (of the firm of F. B. Wallace & Co.), member of the New York Stock Exchange, being duly sworn, deposes that the money writer of the New York HERALD, during a conversation with deponent on Tuesday, February 27, 1872—the day before the first article reterring to the holiday of March 17 seppeared in the HERALD—expressed his intention of writing the article as a piece of pleusantry upon those who should fall to see that March 17 feil upon Sunday, J. F. PHILLIPS.

Sworn to before me, this 29th day of February, 1872.—MATTHEW DALY, Notary Public, New York county.

SOUTHERN SECURITIES DULL.

The Southern list was dull, with a decline in the Tennessees, but steady elsewhere, closing as lol-lows:—Tennessee sixes, ex coupon, 66 a 66½; do. new, 66 a 66½; Virginia consols, 54 a 55½; do. do. deferred, 17% pid; Georgia sixes, 80; do, sevens, 90; North Carolina sixes, ex coupon, 24% a 35; do. new, 17% bid; do. special tax, 13% a 14; South Carolina sixes, ex coupon, 52% old; do. new, Juyl. 95 a 95%; do. Hannibal and St. Joseph, 92% a 93 Louisiana sixes, ex coupon, 58 a 62½; do. levee sixes, 62 bid; do. eights, 70 bid; Alabama eights, 93 bid; Arkansas sevens, 58,

The stock market was intensely dull, and opened weak, but, with the relaxation in money, became trong, only to fail off again at the very close. These changes in its tone were accompanied by trifling fluctuations, the most of the list varying hardly more than % per cent. Pacific Mail was an

exception and ranged between 60% and 60%. Hannibal and St. Joseph fell off to 37% for the common and 58 for the preferred. Mariposa sold at % and the preferred at %. At noon to-morrow, March 7, those shares will cease to represent anything of value, and will be gathered to that mysterious results. gion where the woodbine twineth, and whither they have been preceded by Bucks County Lead and other legendary fancies of the stock list.

SMALLPOX.

The Disease in the Streets. The importation of the smallpox from neighboring States is every day growing in extent, and it is to be hoped Governor Hoffman will take some decisive steps to arrest the flood of cases into this city that has been inundating it for some time. papers before him relating to the matter. Last week the Commissioners of Charities and Correction complained to the Board of Health that some offcials at New Brunswick, N. J., had sent a boy directly to New York who was suffering terribly from this loatusome disease, and they asked the

SOME IMMEDIATE ACTION to stop the further influx of patients. Yesterday atternoon a man named John Keys was found on atternoon a man named John Keys was found on the corner of Chambers and Centre streets by Captain Kennedy, of the sixth precinct, who was covered all over with the filing virus. This man fold Captain Kennedy he had no home, and there can be no doubt but that he was sent to New York from some intain village where the ristics were alarmed at the disease that had attacked the poor fellow. In New York the man can be properly cared for and so treated that he will recover from the sickness, but it is

treated that ue will recover from the sickness, but it is

A PRIGHTFUL EXPOSURE

of the health of the people to ding a disease like smalpox into the public streets, more especially where there are so many flithy channels to convey it to the homes of the poorest classes, who always suffer the most from epidemics. The street cars are a most fruitui source of contagion, and transmit infection to air classes. The present condition of the streets only tends to make the cars still more forcible in dealing out death, and the immense masses of manure that now encumber the east and west sides of the city make up an appropriate climax to the universal dirt, diseases and the vermin. As may be seen by the report in the Heratlo of yesterday, on one line of cars the straw is changed every day, the cushions taken out at hight and beaten, and such other precautions are taken that the cars are comparatively clean, but in others the damp, dirty straw is allowed to remain for weeks and the custions and backs are never disturbed with any ceaning apparatus. It is to be hoped the board of health will continue the work begun by Commissioner Barr, and then if cuolers should come with the warm weather the city would be in a condition to cope with the discusse.

The Result of Removing a Smallpox Patient

from His Home.

Mrs. Mary I. Remsen, a widow, of Brooklyn, has brought a suit against the Board of Health, Health Officer Cochran and Isaac Van Riper, to recove \$10,000 damages. It seems that early in January 1871, her son Richard, a young man about twenty years of age, was prostrated by the smallpox, a their house, No. 56 North Portland avenue. The case becoming known at the Health office Dr. Cochran ordered Van Riper to remove the young man to the hospital at Flatoush. Young Remsen was taken there, and on the listh of January died. Mrs. Remsen claims that she was partially dependent on her son for support. When he was prostrated he was well cared for at home; after being taken from the house he was put in a wagon and exposed to the cold weather for several hours. Mrs. Remsen further states that she was not allowed to see him until after he died. She brings this suit to recover for the loss of her soal's services, &c., and claims damages in the sum of \$10,000.

Corporation Counsel William C. De Witt, for the defence, yesterday interposed a demurrer to the complaint, and the case was argued before Justice Gilbert. Mr. De Witt contended that if there were any responsibility or liability it rested on the city. The Board of Health was merely a department of the city government. He furthermore contended that in the case of the death of a child the parent could not now bring suit to recover for loss of services, as by the statute the next of kin had the right to bring an action for damages, the sum not to exceed \$6.000. Another ground taken by counselior De witt was that the complaint did not set forth that the lather was dead, and in such a case an action could not be brought by the mother. Decision reserved. case becoming known at the Health office Dr.

STREET CARS.

The Filthy Straw and the Infected Cushlons.
The resolution introduced before the Board of Health by Commissioner Barr, asking for an inspec-tion of the street cars all over the city, has aiready produced some good results. The Third avenue line sent word yesterday to the Health Department that the company intended to forbid the use of straw in future in the cars, and they would also re-

straw in future in the cars, and they would also remove the filthy cusmons as speedily as possible. Promises, of course, are very good in their way, but they are not enough at the present moment, when the city is teeming with dirt. The City Sanitary Inspector says that

The Straw USED in the street Cars is a most fruitful generator of disease, but, he siso adds, to remove the straw and leave the cushions and backs is absolutely only doing half the work. The Third avenue line is the most extensively used in the city, and the company should be more than ordinarily careful of the health of the passengers who travel in their cars. The inspectors who examined the street cars not only complain of the straw, the seats and backs, but of

THE VANTILATION AND OVERCROWDING.
People are indicated into these conveyances like bags of sait, without any hope of getting a breath of wholesome alt, and the result is that numbers of them contract diseases that lead them to the grave. It is the intention of the Commissioner to bring the matter again before the Board of Health, and if the companies of the different railroads in the city do not take steps to improve the cars an order will be made by the Board compelling them to make such alterations in the vehicles as will insure the comfort and findful of passengers. Since the order will be made by the Board compelling them to make such alterations in the venicles as will insure the comfort and health of passengers. Since the matter has been agitated by the Heralin great excitement prevails among the travelting public. Many persons complain that the cross town lines are so fitty and full of vermin that the passengers leaving them to go up and down town by other cars carry with them any vermin or contagion with which they may have come in contact.

THE ALLEGED QUARANTINE ABUSES.

The Fees Now and in 1869. TO THE EDITOR OF THE HERALD:-

SIR-As a great deal has been said on the subject of the enormous fees exacted by Dr. Carnochan while Health Officer of this port, and as many suppose the charges to be true, will you allow me to contrast the fees under that officer with those collected before his accession to that position. It will be seen from the following table that on many articles a material reduction has been made:-

| Present Englisher | Present Rates | Present co-tonge.

50 Cotton, bale...

31 Wool, bale...

19 Coffee, bag.

16 Hides (g'n) M.

60 Dry, M.

31 Logwood, ton.

18 Flour, bbl.

63 Rosin, bbl.

67 Rice, tierce...

66

customary harbor rates were enarged on all goods. Under the present administration the rates on unenumerated articles are:—Merchandise subject to an obligatory quarantine, 100 per cent above the ordinary harbor rates; merchandise subject to an optional quarantine, fifty per cent above the ordinary harbor rates; merchandise exempt from quarantine, twenty-five per cent above the ordinary harbor rates. It may be charged that even this reduction is not enough; but men cannot be induced to run the risk of their lives by working in the midst of contagion without the inducement of extra compensation. Besides, they are not allowed to do any work outside of Quarantine, and as they are required to be on hand at all times, whether there is work for them or not, they need to have some extra pay to make up for the time spent in Mileness while waiting for employment. As only seventy-five out of the 9,576 vessels which arrived subject to quarantine were discharged in lighters during the past season there must have been, of course, many days when there must have been, of course, many days when there was nothing to be done. customary harbor rates were charged on all goods.

Seventeenth precinct, informed Coroner Young that at hair-past eleven o'clock in the morning August Gerhart, a German, thirty-eight years of age, had been found dead in his bed at 22 First street. Death is supposed to have resulted from suffocation, as the gas was found to be flowing treely from the burner, which had been left open, and the room filled with gas. The Sergeant reports that it was not ascertained whether the suffocation was accidental or intentional on the part of the deceased. From information subsequently received it appeared that Mr. Gernart, a man of intemperate habits, was in the habit of coming home intoxicated: but whether he was so on Wednesday evening did not appear. The family with whom deceased boarded knew of no cause why he should have purposely left the gas turned on, and seemed to regard it as an accident.

BROOKLYN AFFAIRS.

The Death Record. The mortuary reports of the floard of Health show the number of deaths in Brooklyn during the past week to have been 216. Of the deceased 37 were men, 44 women, 59 boys and 76 girls. There were 27 deaths from smallpox.

Shooting Into a Street Car.
As car No. 10, of the Fulton Avenue line, was As car No. 10, of the Fulton Avenue line, was passing the corner of Clinton avenue, at half-past twelve o'clock yesterday morning, some miscreant discharged a pistol at it, notwithstanding the fact that there were a number of passengers in it at the time. The ball passed through the woodwork and dropped into a vacant seat. The conductor of the car thinks he saw the man wao fired the shot crouching in the shadow of a high board tence. The passengers were somewhat startled, fearing another shot might follow the first.

The Committee of Fifty Denounced. nounced the Committee of Fifty for naving failed to detect any fraud, elect any officer or arraign any oriminal, and for having condemned unheard certain of their members, members of the Council of Vigilance. They adopted the following:—

Kesolved, That we instruct our delegates each to maintain his honest views as to whether the Committee of Fifty, by its inefficiency, its internal dissensions, its flitterality and its in-justice, has not ceased to be useful to the public.

FATAL RAILROAD CASUALTY.

On the 18th ult. Mr. William J. Jones, a young man twenty-five years of age, had one of his feet crushed corner of Sixty-second street and Third avenue, by car No. 44 of the Third avenue line passing over it. The injured limb was amputated in Believue Hospital, and death ensued yesterday. Coroner Herrman will hold an inquest. The remains are to be taken to Albany for interment.
